

ROBOTICS

summer club

WHY ROBOTICS FOR KIDS?

WHY ROBOTICS FOR KIDS?

Hands-On Learning

Kids learn by doing—building, coding, and problem-solving.

STEM Skills

Robotics integrates science, technology, engineering, and math.

Creativity

Robots are a canvas for imagination and innovation.

STEM TOPICS IN ROBOTICS

STEM TOPICS IN ROBOTICS

Programing

Algorithms

Electronics

Mechanics

Team work

3D design

3D printing

Math

Physics

Problem solving

THE ROBOTICS COMPETITION

Fueling Purposeful Education

PURPOSEFUL EDUCATION

Why Compete?

- Applied Learning
- Problem-Solving: Real-world challenges require creative solutions.
- Teamwork: Collaborate, share ideas, and build together.

Purposeful Education

- Kids learn with a clear purpose.
- Focus on teamwork, determination, and resilience.
- Competitions foster community involvement

Impact of Competitions

- STEM Engagement
- Software Skills
- Future-Ready: Prepares students for cyber-physical systems.

CONCLUSION

BUILDING TOMORROW'S INNOVATORS

Inspire

Ignite passion for
STEM.

Create

Innovate, design, and
dream.

Compete

Unleash potential and
make a difference.

THANK YOU
